Safety In The Computer Lab DRAGraphics

Safety in the Computer Lab Safety in the computer classroom is a priority for students, teachers, and parents. To ensure a safe computer classroom, a list of procedures has been developed and provided to you in this student safety contract.

Lab Safety Rules and Guidelines Lab Manager

Having a strong set of overall laboratory safety rules is essential to avoiding disasters in the lab. Lab Manager recently scoured the safety policies of several laboratories to determine some of the most common lab safety rules out there, to help you whether you re developing or updating a set of policies for your own lab. Of course,

safety rules are only effective when they are enforced
